Work with us

The Ballina Tourism Team want to work with local businesses to promote unique and authentic experiences that give our destination character.

If you already offer a visitor experience, a workshop or interested in creating a unique experience that appeals to a visitor, then work with us to open up new business leads.

Benefits of working together

Working together as a destination means we can position the Ballina Shire as a MUST destination to visit for those seeking value for money authentic experiences.

The more bookable, unique experiences we can offer to visitors, the more likely they will choose to visit our destination, stay longer and tell their friends and family about our region.

As a business owner, you can promote your experiences through your own marketing channels, but to have it featured on the destination website gives you more exposure. By working collaboratively as a destination we have a stronger marketing presence, giving the consumer more choice and more incentive to visit.

Getting involved is easy

Create a unique experience that can be sold online. it costs you NOTHING to give it a go. If you get no sales you don't pay us a cent. If the experience you are offering is not working, change it anytime. Some experiences may not generate any sales if the customer does not see the value proposition, ensure you are offering something that fulfills a need. You do not need a gateway merchant. You do not need to take payment. Ballina Shire Council will credit funds into your nominated bank account. You do not even need to have the experience offered online already.

1. Complete and return the Bookeasy Sign Up Form to include your nominated bank details for Ballina Shire Council to pay you
2. The Ballina Tourism Team will send you a Bookeasy login and password. You can now load your experience offering onto Bookeasy. Be sure to include appealing images and your availability (we understand COVID-19 is having an unprecedented impact so we suggest you get involved now, but make experience available from 1 July 2020).
